DEVELOPMENT EXPERIENCE

ScoreHoard   6/2017
https://scorehoard.com/ || https://github.com/JordanBenner/scorehoard
- ScoreHoard allows gamers to send scores (and the usernames associated with the scores) directly into the ScoreHoard servers
- Integrated a custom system allowing direct access to style custom leaderboards and high scores table
- **Built with HTML, CSS, Node.js Express, JavaScript and PostgreSQL**

Kodachrome   7/2017
https://www.erzsebetkodachrome.com/ || https://github.com/JordanBenner/Kodachrome
- Hired as a freelance developer to develop an ecommerce site to push growth and market picture sales
- Implemented PayPal API to allow for customer checkout and enabled sign in/log in for user accounts
- **Built with HTML, CSS, Django, Python, JavaScript and uses a custom database client**

Contacts App   7/2017
http://www.jordan-benner.com/contact-app/ || https://github.com/JordanBenner/contact-app
- Designed with the app stores in mind to take care of the user's contacts, managing data transfer securely without the reliability of conglomerate cloud services
- Using Firebase, allows for application data to be synchronized across clients and stored on Firebase's cloud
- **Built with React, Redux and Firebase** to house contacts for a more practical way of storing a data in a database locally and efficiently

PROFESSIONAL EXPERIENCE

GROWTH PROPERTY INVESTORS, Magnolia, TX   4/2012 - Present
Co-Founder/Project Manager
- Maintain in-depth knowledge of competition through consistent evaluation of market conditions
